1 Topics

114 Fringes

- Temperatures of urbanity: Fringe territories as a field of experimentation outside the big cores
- Better accessibility for Urbanes Land: The crisis of transport and mobility and the challenges of providing urban access
- In conversation with Georgeen Theodore. Beyond the urban cores: How to achieve openness and diversity in American suburbs through planning
- A taskforce for suburbia: The British Suburban Taskforce and its goal to identify strategies and policies to support suburban areas
- Occupy the docks! From fragmentation to liveability: The transformation of the Royal Docks in London
- Balancing the urban-rural dynamics: Drawing inspiration from the Far East to overcome the urban-rural dichotomy
- In conversation with Uli Hellweg: Reflections on how digitalization impacts urbanization and suburbanization processes
- Metropolitan ecotone: Berlin and the surrounding area of Brandenburg: How to design the metropolis of the future?
- Polycentric portrayals: Max Guthér's hyperrealistic isometric illustrations of a possible Stuttgart city region
- In conversation with Andreas Hofer: The artistic director of the IBA '27 on how to find a new definition for the city region of Stuttgart
- Designing the hybrid and the fragmetary: Four participatory planning projects at the fringe of Italian cities
- Corridor D8: Non-places and spaces-in-between. Landscape of logistics along the motorway
- Manual for Mongolia: District upgrading along the fringes of Ulaanbataar

115 Right to the City

- Crisis as opportunity: Henri Lévèbre's impact on today's city development
- Prototypes for a real utopia: City of Refugees. Four utopian cities as a platform for a new, global multi-ethnic society
- Gender, race and the right to the city: In conversation with Kelley Lemon and Andrew Sargeant of BlackLAN
- Woman building cities: The role of female urban planners and designer in creating cities
- The boon and bane of private funding for public spaces: How to upgrade neighbourhoods. The High Line in NYC and the Atlanta BeltLine
- Their right to the city, and ours: Who builds the city and who owns it? Reflection on the "real estate state"
- Green Grandeur: The ambivalent endeavour of the transformation of the Parisian Champs-Élysées
- Interstitial Justice: Traffic space is public space. Calling for a paradigm shift with respect to the spaces dedicated to mobility
- Coping with compounded crisis: Post disaster and pandemic management in New Orleans. In conversation with Laura Paul of lowernine.org
- Urban health matters: The right to the healthy city
- Kids and the city: In search of the child-friendly city. How to overcome the dichotomy between cities and children?
- Lonely man in the city: the never-ending search for balance between authorities and the citizenry
- Borders wide shut: No trespassing. The Berlin Wall Artist Thierry Noir once reclaimed the city
- Creating Porous structures: Can an embassy be a place of encounter and openness?
- Informal settlements and the RTTC: In conversation with urban planner and architect Fabienne Hoelzl who plans in the Global South
- Making space with public art: The art of forming venues of encounter and debate with public art

1 Topics

116 The Resilient City

- The most resilient airport on earth? A photo series
- Resilience: Time is of the essence. An introduction
- In deep water: About four controversial water-resilience-projects
- Resilience through social innovation: How Genoa is making the difference
- The "Artery of Hope": Why Alexandria should take a closer look at Hamburg
- Water science, design and sustainability: A portrait of greenskins lab
- The city adapted: Indian cities as pioneers of resilience
- Resilience – in a nutshell
- The City of Kochi: About the Morgenstadt Global Smart Cities Initiative
- Bottom-up resilience in Singapore: Herbert Dreiseitl was asked to lead to public engagement project "The resilient Cambridge Road"
- "Architecture is a discipline that is afraid of plants": An interview with Rudi Scheuermann from Arup.
- An urban forest against all odds: How the traditionally resilient city of Mendoza is developing innovative ways to fight climate change
- Bounce back? Spring forward. Why we should discuss resilience in a new way
- Resilience during health crisis: How public transport creates resilience based on lessons from COVID-19 crisis
- "Greenness does not happen by itself": An interview with HUGSI's Erik Swan
- Designing a resilient river landscape: About Anger's People de l'Herbe Park

117 Infrastructures

- Clover 21: The cultivated, landscape-forward, open, vibrant, ecological and responsive city
- Why do we need Clover 21? We are all infrastructure
- Eindhoven: The 21st Century City. The "anti-metropole" as a multi-layered, interactive and dynamic urban hub
- Climate future and the digital civic universe: How city and national adaptation maps could offer new ways for designing a sustainable future
- Landscapes of decarbonization: Infrastructures of net-zero decarbonization in Canada
- The future of park systems: The social and ecological civic service of historic and contemporary parks systems
- The architecture of cohabitation: Animal-Aided-Design. How to encourage planners to design animal-inclusive urban infrastructures
- In conversation with Florian Idenburg: The Masterplan "Power Artpark 2030" – a roadmap for the future of an American cultural institution
- The tower of Babel: Disconnection of city of knowledge
- Intermezzo: Eindhoven. The multi-layered city
- The social infrastructure of the smart city: How can "Smart Cities" be more inclusive?
- In conversation with Gesa Ziemer: The Digital City. How to use urban data for the good of citizens
- Copenhagen – the city of cyclists: Implementing bicycle infrastructure – a viewpoint
- Human centred vs machine centred: Rotterdam Centraal – a case study
- Mix, Balance, and integrate! Infrastructure: London's South Bank
- Between the land and the sea: An incomplete Atlas of Stones
- Alphabet City: A conversation on public art at the scale on the city
